ORAC GIVES AN EXTRA DIMENSION TO DECORATION: XL COLLECTION

DECORATION SPECIALIST INTRODUCES EXTRA LARGE MOULDINGS WITHIN THE ORAC LUXXUS RANGE

Decoration specialist ORAC is adding even more to its range with the new XL collection. Seven monumental mouldings, designed by architect Xavier Donck, ensure a powerful visual effect and give decoration an extra dimension. The XL collection is part of the ORAC LUXXUS range, an exclusive assortment of creative profiles and decorative accessories.

The XL collection by ORAC consists of seven extra large mouldings: three cornices mouldings, three PANELS and one high skirting board. Architect Xavier Donck designed the monumental mouldings primarily for taller ceilings, but the collection leaves lots of room for creativity: the mouldings can be placed horizontally as well as vertically, depending on the desired effect.

The XL collection is part of the ORAC LUXXUS range, an exclusive selection of creative profiles and decorative accessories under the umbrella of the ORAC DECOR brand. The various mouldings are made out of quality synthetic materials like Duropolymer and Purotouch.

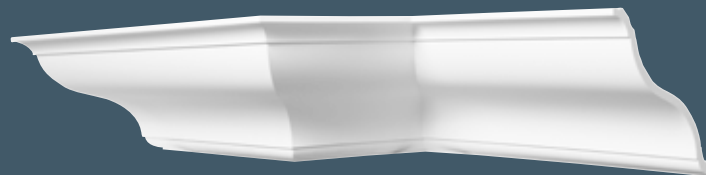

ABOUT ORAC

Established in 1970, the Belgian family firm ORAC Corporation, has grown to become the trendsetter in quality decorative products in synthetic material. The selection is as broad as it is complete. In addition to a range of skirting boards and decorative frames it also includes: rosettes, pilasters, columns, dados, niches, medallions and decorative lighting. In short, everything you need to give an interior a new look in no time.
